Hostelling International Slovenia

While discovering Europe's hidden gem, you can rely on Hostelling International Slovenia for accommodation. Hostelling International is a unique network of affordable hostels with well-established Assured Standards, which means you can rely on a consistent level of services and facilities. We focus on quality over quantity and try to make our guests feel as welcome as possible, so you can always expect your stay to be comfortable, fun and accommodating, plus we always try to ensure cleanliness, safety and privacy. Experiences are better lived when shared with others in friendship and understanding, which is why our hostels are warm, cosy and friendly for travellers. With travelling, we also become more conscious of the world around us and that is one of the reasons why our mission is to support sustainable tourism. If we travel smart, we can make the world a better

place. And since travelling is about meeting people and discovering cultures, our hostels accommodate families, groups and solo travellers, regardless of their age.

As a member of Hostelling international, which was founded in 1932, we follow our common mission: "To promote the education of all young people of all nations, but especially young people of limited means, by encouraging in them a greater knowledge, love and care of the countryside and an appreciation of the cultural values of towns and cities in all parts of the world, and as ancillary thereto to provide hostels or other accommodation in which there shall be no distinction of origin, nationality, colour, religion, sex, class, or political opinions and thereby to develop a better understanding of their fellow men, both at home and abroad."

About Slovenia

Discover Slovenia, a great destination for holidays, city breaks or weekend getaways, regardless of the season, and ideal for families, groups and solo travellers of all ages.

National Geographic Traveler magazine declared Slovenia as the world's most sustainable country in 2019. Slovenia is a small country with a huge heart and full of contrasts. It's a land of diversity where the Alps meet the Mediterranean Sea and where the Karst slowly gives way to the Pannonian Plain. Its natural and cultural diversity make it a country of constant surprises. You can listen to the waves and smell the sea breeze while taking in the beautiful view of

the Alps. Where else in the world could you go skiing in the morning and then let the waves of the Adriatic Sea bury your feet just a few hours later in the afternoon? You can climb uphill to the mountain pastures to enjoy the most beautiful views of lush river valleys and gorges carved out by powerful natural forces, or head deep into the caves to discover the secrets of the subterranean world. Travelling is also about discovering new food and all this can be combined with an unforgettable culinary experience. With all the excellent wines the country has to offer you'll truly get to feel Slovenia.

Travelling is our passion.
